“ I feel so blessed to have been able to spend time with him the day before his passing. He seemed full of life - eating his Oreos, winking at me, watching his cowboy shows, telling me he loved me and that he was so happy I came by. Even asked for his slippers - I said “what, you plan on busting out of here” and he shook his head yes! (He’s been bed ridden for a couple of years now due to not being able to regain his strength from breaking both hips - at different times). The thing that sticks out most in my mind about this visit; is that as I was leaving, I had made it halfway down the hallway and I hear him from his room yell out “I love you” I walked back to his room and let him know that I loved him very much, too & that I’ll be back by the next day or following day and to be sure to eat all his dinner. He just winked at me. The main reason this sticks out the most is because prior to me leaving he was struggling to make sounds with his words (which he had been for a couple of weeks) but he was able to not only make the sound but was able to say it so loud and clear that I heard him from halfway down the hallway. I will forever cherish that and all the memories he always was sure to create with me and all his grandkids. He was and is such a great man and I miss him more than I can ever explain. I love you, Poppop. I know you’re finally at peace, walking freely and painlessly with Jake and Bailey.L

“ *I was privileged to have Chuck as being part of my life and that of my kids Rachel and John. Pops moved in with Steve and I and i became his care giver for 3 yrs., and he always found a way to make you laugh and raise a few eyebrows, as was his sense of humor. I always looked to pops as my dad in America as not having any family in the states, he made sure to always include me. I will miss him more than words can say, and know he is in heaven dancing amongst the stars and with him mom and dad again and all those who went before. Love you pop-pop.
