“ *Ms. Joy Victory*

Joy was an advocate of equality and justice especially for people of African descent. She was raised in the Mission Church of Father Divine and taught from an early age that God is the Father and all human beings are his children. This concept of the oneness of humanity didn't manifest itself until she was introduced to the Message of the Baha'i Faith. She traveled to many lands in the East and West and witnessed the principle of unity in diversity around the planet. Some of her journeys included China, Russia, Uganda, Germany, Israel and many other lands. She will be missed in this material world but there is no doubt that her work of inspiration will continue to advance the cause of peace and unity in this diverse planet of humanity.

*It is for love of the hearts of men and the oneness of the world of humanity. . .He has appointed us servants of the human world, advocates of peace and unity among the religions, heralds of universal agreement among the races and nations, founders of divine reconciliation among all peoples
(Abdu'l-Baha, The Promulgation of Universal Peace, p. 419)*
