“ I am greatly saddened by the loss of Anne, but truly believe she is with my dad now. Anne helped guide me through some difficult "growing years", with patience and love. She never grew weary of listening to the latest problem or concern. Just put another pot of coffee on and she would help you sort it out, give you advise or just be the sounding block until you thought you figured it all out. She offered her children up as siblings to me a gift I should have continued to treasure into adulthood. She was a wonderful Grandma to my children, and they loved her dearly.

With a smile, I remember

Playing cards "spades" through out the night. I believe she is the only one of us that never cheated.

My fav pork chops and rice with that BQ gravy

Miss you
