“ Hancock Family,  
Our thoughts and prayers have been with all your family. The past couple of months have been hard on all of you. Keep in mind of the great love Heavenly Father has for each of His children. A love that enables us to live with Him again one day and be with our families eternally. The day will come when your family will be reunited forever. We love you and will continue to pray for you.

“ Dear Terry, Layne, Jonathan, and Tyler,

*We have all been knowing this day was rapidly approaching, and have prayed for your family to be spared. But we do not doubt for a moment that all will be well one day. You and your sweet Neena will have your children forever and forever because of the sacred covenants you made as a family. We can look forward to that wonderful reunion, though it seems far away at this time.*

*Joel and I love you all, and know that your blessings will all come in due time. May our Father in Heaven bless and keep you safe during this difficult time.##imported-begin##Susan Hancock##imported-end##*

“ Terry, Layne, Jonathan and Tyler,  
Please know that our thoughts and prayers are with you at this difficult time. Even through this terrible sadness, I can't help but think of how unimaginably happy Neena is hold Taylor and Joshua again and be with her parents and those who have gone on before her. Like so many of us in this unenviable group of parents who have buried children, Neena was torn between loving you who were still here with her and aching for the ones gone ahead. We, and especially your family at this time, have to bear the hurt. Neena now knows complete joy, tempered only by knowing that your jobs aren't done yet. Every day I remind myself that the best tribute I can pay to Charlie and Daddy is to live this life in such a way that I will be worthy to be with them again....this time for eternity.  
Mama and Deena send their love. If you ever need your Harkers Island family for anything all you have to do is ask.  
Sincerely,  
Lisa  
Sincerely##imported-begin##Lisa Hancock Guthrie##imported-end##
