“ I was a neighbor to Melonie and Russ from 2004-2007. That's not a lot of time but they made a big impression on me. They were the greatest next door neighbors ever! We shared many a glass of wine on the back deck, enjoying the trees and and our neighborhood owl while chit chatting about this and that. I loved living in the community and enjoyed our neighborhood camaraderie, I knew it wouldn't last forever. Being in the military, I had a change of duty station to Wash DC in 2007. Moves, as always, are pretty chaotic, but this one seemed as though it was going as expected. However, after the pre-move company representatives assured me they would move a portion of things into my backyard storage shed, the moving van rolled in on the day of the big move and the foreman told me they would not do that. So I had a situation where I had to be at the apartment in DC in 4 hours to supervise the move into my new apartment AND I had renters coming in the next day to occupy the home. I didn't know what I would do as there were a ton of boxes and machinery that needed to go into the shed... Enter Russ. He calmly told me he would take care of the situation and he did. I went off to D.C. while he rounded up a team of other neighbors and family who got everything into the shed before the new tenants arrived. I really don't know what I would have done without him jumping in to help me. Russ was just a good-hearted person. We will all miss him. Thank you, Melonie for putting up this site so I could give you all a final thank you.
