“ I haven't been in town to see Mr Mask as I called him every time as I was always with Otis and usually not where we should be doing what we should be doing. Though Mr Mask was a very knowledgeable man when it comes to the Automotive field and he always caught my attention when he has something torn down to rebuild. He Will be missed.##imported-begin##Wade Pemberton##imported-end##

“ Early 1980 I was looking for a job when I applied at Norshipco. Billy interviewed me and hired me as a 1st class electrician. A little over 4 years later, Billy promoted me to supervisor. I still remember the words he told me, "treat everyone fairly and treat everyone the same and you will be OK." That was the start of my career at Norshipco in managment. One that eventually took me to the position of Electric Shop Foreman , the position that Billy held when he retired. Billy always would make sure everyone was off the ships and safe before he would go home for the evening. He was always there to listen and offer guidance when needed. I never saw him get upset when something would go wrong. He would just find out all the facts and form a solution for what ever the problem might be. He always enjoyed sharing in a good story about someone's adventures over the weekend or while on vacation. He had that kind of personality that no one ever forgets. I can still see his smiling face to this day.##imported-begin##Keith Beahm##imported-end##

“ To the Mask family; In your time of grief, try to find comfort in the impact that Billy provided to all who came in contact with him. I will always remember the look on his face when he laughed and smiled. I am sure I am not the only one that he gave a few minutes of joy to.##imported-begin##Jeff Barrett##imported-end##

“ *Bill's Family:*

My thoughts and prayers go out to each of you at this time of your loss.

Bill was a very special soul. Even though 3000 miles separated our families I came to know and love Bill through phone calls and emails. I was so amazed that a man of Bill's age would take the time to learn how to instant message and download pictures on the computer and send them to me on the internet. That is a sign of living your life no matter what your age!

I am thankful that I got to spend a few days with Bill before he passed; I know my dad Daniel Mask would have wanted it that way. I will miss him.

Ruby I want to send a special thank you to you for taking such good care of Bill.

All my love,

Lisa###imported-begin###Lisa Bauder###imported-end###
